

TECHNICAL DATA SHEET

Parameter	Flooring Specifications
Actual Size	1.02×1.02m x 70mm / pcs 1 pcs / m ²
Weight	16.5 kg / pcs 16.5 kg / m ²
Weight Load	200 psi, depending on subsurface conditions
Color	Black

Dimensions: L1038mm x W1038mm x H70mm

40ft HC container: 800 pcs / 800 m²

20ft GP container: 380 pcs / 380 m²

SOLUTIONS FOR EVENT, CONCERT & STADIUM

Designed for outdoor events, weddings, functions and tent platforms.

LEVO FLOOR APPLICATIONS

Interlocking Performance Flooring for Reliable Temporary Ground Protection

INDUSTRIES

LEVO Floor creates a stable working and pedestrian surface over grass or uneven ground.

PROTECTION

The temporary floor can be assembled, reconfigured and removed quickly for changing site requirements.

TEMPORARY

Ideal for construction walkways, temporary work zones and accommodation areas.

FAST INSTALLTION

STEP 1: INSTALL BASES

STEP 2: CONNECT EASILY

STEP 3: LOCK IN

Simple assembly with no complicated tools.
